

Crystal Clear: Responding to Methamphetamine Use

WHERE: Floor 4, 270 Roma Street
'Biala' City Community Health Centre
Brisbane QLD 4001

WHEN: 2nd April 2019

TIME: 09:00am – 01:00pm

This **half day** workshop is designed to assist frontline health and community service practitioners who work in AOD treatment or casework support roles to better understand and respond to the specific needs of clients who use methamphetamine.

Topics covered include:

- overview of meth/amphetamine: what it is and how it affects the body
- history, statistics, current trends and rates of use
- risks, harms, dependence, intoxication, withdrawal and psychosis
- harm reduction and evidence-based treatment options
- overview of new "Meth-Check" treatment tools
- supporting families and significant others
- designing services to better respond

Bookings are essential. To register for this workshop, please go to:
