

Advanced Harm Reduction

Core Skills

WHERE: Education Centre,
The Prince Charles Hospital
Rode Road, Chermside QLD 4032

WHEN: 17th July 2019

TIME: 09:00am – 04:30pm

NB: Participants must have completed Insight's "Understanding Psychoactive Drugs" workshop or be an existing employee of an AOD or Mental Health service to be eligible for this workshop.

This course is designed to equip frontline AOD and Mental Health specialists with up-to-date information on generalist and substance-specific harm reduction strategies for AOD clients.

Other topics covered include:

- evidence underpinning harm reduction as an intervention
- principles of ethical harm reduction
- substance-specific harm reduction strategies
- full overview of safer injecting practices

Participants will also be provided with an overview of the types of injecting equipment available at primary NSPs and witness a practical demonstration of safe injecting with a prosthetic device.

NB: This training is targeted towards workers employed within specialist AOD treatment and mental health services only. It is not suitable for generalist health and community workers, statutory officers or members of the general public.

Bookings are essential. To register for this workshop, please go to:
